

Filling machines Series PD - Servo

Design SL

with suction pipe
for liquid products

Design TR

with hopper for pasty products

Optionals:

conical cock valve
Electric heated hopper
Stirrer for the hopper

user-friendly control panel

setting of filling volume
filling speed
number of units
basic machine parameters
and more..

- Servo drive for maximum comfort
- Touch screen for all settings
- Database for 100 recipes
- Quick change-over

Filling stations:	1-4
Product contacting parts:	stainless steel 1.4571
Sealing rings:	Perbunan, Viton or PTFE
Drive:	230 V, 50 Hz
Air supply:	6 bar
Output:	up to 20 strokes/min

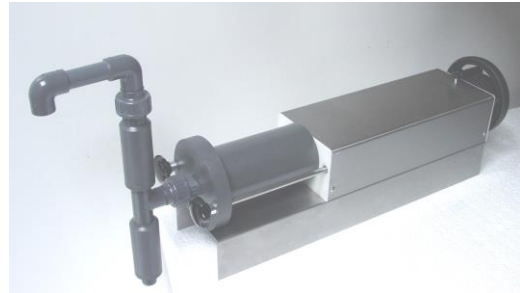

Filling ranges:

PD 2	0,2ml-2ml
PD 10	1,0ml-10ml
PD 25	2,5ml-25ml
PD 50	5,0ml-25ml
PD 100	10,0ml-100ml
PD 250	25,0ml-250ml
PD 1000	100ml-1000 ml
PD 2500	250ml-2500 ml
PD 5000	500ml-5000ml

Example: PD SL-Version
with machine table mounted on wheels

Example: PD SL-Version with product
contacting parts fully made of plastics

Example: PD SL-Version mounted to an automatic filling and closing machine
